# Prequel to HW VIII

PublishedPublished. Click to unpublish. Edit Manage

The prequel to Homework VIII involves playing with some digital interactive figures. You need to open the Mathematica Worksheet-1.nb file posted below. To use the file, download the cdf player from Wolfram Player: https://www.wolfram.com/player/Links to an external site.

Use the player to come up with conjectures and observations about how the eigenvalues and eigenvectors behave in the contexts illustrated. Write at least a sentence for each question. Your answers do not need to be detailed and you do not need to prove that your conjectures are correct (until possibly HW VIII itself).
