MATH 564 Tuesday September 24

## Valve Design Project

| | | | | | |
|---|---|---|---|---|---|
| (1) | 2.70 | 2.40 | 1.16 | 50.7% | |
| (2) | 2.51 | 1.89 | 1.08 | 93.3% | ☆ Good Work! |
| (3) | 1.79 | 2.02 | 4.00 | 35.7% | |

---

New valve design strategy for next wednesday. Each person is part of a small team (see below). Each team will collaborate to determine a single test vector. Each team should come to class with a prepared justification presentation of 3-5 minutes in length. After each team presents we will have a vote to choose 3 test points.

---

Team A: Mathew Anish Logan

Team B: Sajjad Oleh Alex

Team C: Freeman George Conor

Team D: William Kamyab

Team E: Lazizbek Abdel

---

I will post a second set of notes that covers the topics discussed in class.
